

DOMINIC KIPCHIRCHIR

Nairobi, Kenya +254725974394
kipchirchirdominic18@gmail.com

I am a Full Stack Web3 Developer with a solid background in the Ethereum blockchain, cryptocurrency, Solidity, smart contract React.js, Hardhat, Redux and Next.js. I possess a knack for building applications with utmost efficiency and consider myself a strong professional with a positive attitude, eager to be an asset for an organization. In terms of my skills and expertise, I have experience as a full-stack Web3 and Mern stack developer. My proficiency extends to interactive front-end development, aligning with design specifications. I am well versed in using React and Redux for effective state management. Additionally, I have hands-on experience in building REST APIs, managing databases, creating smart contracts, and seamlessly integrating payment systems.

WORK EXPERIENCE

Full Stack Web Developer

01/2022 to Present

Fiverr

Remote

As of now, I work as a freelancer, specializing in building applications for clients. My flexible approach, combined with a focus on quality, ensures that I deliver solutions that meet the unique needs of each client while adhering to the highest standards of development
